The modern world has given us stupendous know-how. Yet avoidable failures continue to plague us in health care. Malcolm Gladwell's review of *The Checklist Manifesto* Malcolm Gladwell Over the past decade, through his writing in *The New Yorker* magazine and his books *Complications* and *Better*, Atul Gawande has made a name for himself as a writer of exquisitely crafted meditations on the problems and challenges of modern medicine. The origins of the checklist. In news that would shock bureaucracies and governments alike, the strategy a lot of industries use to get things right in complex environments is to give employees power. Most authorities, in response to risk, tend to centralize power and decision making. "The Checklist Manifesto is beautifully written, engaging, and convincingly makes the case for adopting checklists in medicine, a project to which Gawande has devoted significant time over the last several years. . . . It is in many ways the most personal of his books, a direct call to action to change the way health care is delivered through straightforward and simple, yet proven, means.
